

# Expo Mini Popup Counter

The portable Mini pop-up counter is simple to construct with plenty of storage space and is the ideal table for your laptop, media player or tft screen when exhibiting. The beech laminate wooden table top is used for counter display and storage is provided by the three A4 internal shelves. The table is then completed by wrapping your printed graphic or fabric loop nylon panel around the magnetic structure. The Mini popup counter is quick and easy to assemble, is lightweight and can be effortlessly carried in the display bags provided.

- Easy to transport carry bag with wheels
- Carry drum for graphic panel
- Fast and easy to setup using the same method as popup display systems
- Three Internal shelves (300 x 300mm) have useful storage to keep brochures or exhibition samples which easily hold weights up to 10kg each
- Wooden table top can bear weights up to 20kg
- Graphic or fabric panels attach to the magnetic struts using magnetic tape

Dimensions and weight: height = 1035mm - width = 685mm - depth of counter = 365mm - weight = 15kg approx

The Mini popup counter is easy to setup. Just expand the popup structure and affix the magnetic struts. Place the three internal shelves into the framework and position the wooden table top on to the structure. Complete your counter display by magnetically wrapping the graphic panel around the structure. The display is transported in the nylon carry bags provided.

Lead time 4-5 days from receipt of order and graphic approval.
